Are You
jQuery?

{<3}

Because you addClass()
to $(this) place.

{<3}

Because I want your `<body>`
near my `<head>`
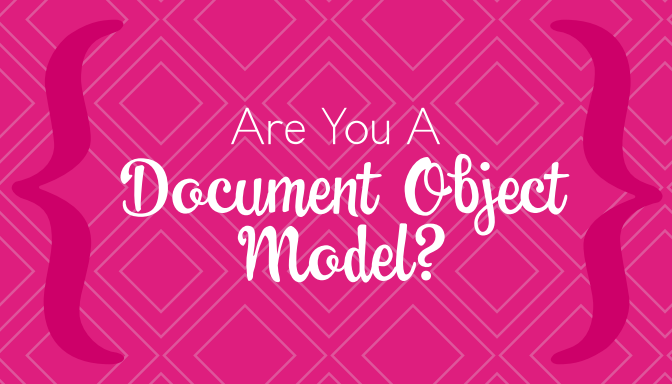

Are You
HTML?

Are You

CSS?

{<3}

Because everything about you is
!important to me.

Are You A *Document Object Model?*

{<3}

Because I want to traverse your <body>

Are You A *Private Variable?*

{<3}

Because I am only declaring
my love for you.

Are You An #1D?

{<3}

Because you are so unique that
I only want to select you.

Are You A Closing Tag?

{<3}

Because you complete me.

Are You A _Function?_

{<3}

Because I'd love to call you.

Are You JavaScript?

{<3}

Because I like it a little vanilla.

Are You A
.Class?

{<3}

Because I want to declare your
style everywhere.

{ Are You An *Event?* }

{<3}

Because I want to be bound to you
when we interact.

Are You An *Array?*

{<3}

Because I think we'd make a
key–value pair.
